The **DRT CowCatcher** comes fully galvanised with a calf shelf with mesh backing to secure your calf, an internal gate that is used to create a calf pen or cow stall and a head yolk.

**Calf shelf**  
with mesh backing to secure the calf

## Options:

### REMOVABLE RAILS

- Ideal for sucking calfs
- Udder treatment/inspection
- Abdominal treatment/inspection
- Caesareans

### HINGED CRUSH GATE

Upgrade from the standard head yoke to a hinged crush gate

### ACCESS GATE

For easier access into the crate

The DRT Cow Catcher comes with Euro brackets as standard but can be made with brackets to suit your own equipment.
